

GREEN GURU

Abhay Kumar, Chairman & Managing Director, Griha Pravesh Buildteck, has already stamped his mark of excellence on more than a million square feet within a decade. He is the driving force behind the marketing and development of all Griha Pravesh Buildteck projects. His keen environmental consciousness led to the company becoming a member of the Indian Green Building Council. Consequently, as compared to conventional buildings, the company's green buildings generate and use less water, promote energy efficiency, conserve natural resources, and provide healthier spaces for occupants. In one of the recent projects in Noida, NCR, he has also ensured the planting of various types of trees in order to green the surroundings.
